

Soul City Church Leadership Code

Dependence

Depend on God, not yourself. Your identity is not what you do - it is who you are, so don't define yourself by your role.

Team

We will build our team around our common calling, our deep character, chemistry, healthy competitive spirits, trust, and mutual submission. We will **NOT** be about complaining, cynicism, gossip, suspicion or unhealthy comparisons.

Flexibility

We think wet cement is better than hardened cement - we are a team that is willing to change. We do not repeat things because they worked. We do not believe "cut and paste" are methods that promote innovation and creativity.

Generosity

We should be the most generous people in the church. Giving brings us joy!

Leadership Development

Doing less is Doing more! Always look for someone that you can develop into leadership by giving away appropriate authority instead of developing a follower by giving away a task.

BE

BE with God. BE with People. DO the work of God out of the fullness of your BEing.

Growth

NEVER stop growing. We do not tolerate stagnancy, because it's the first sign of death. We don't play the victim and make excuses. We take transformation seriously because that's what we were designed to do.

Honesty

Always tell the truth.

Loyalty

We are loyal to our mission and to one another.

Excellence

Work with excellence and wisdom knowing that you represent God and Soul City Church
